Wisconsin Public Library System Annual Report: What's New

Reporting Library System Activities for 2015

This summary describes the changes made to public library system data being collected for FY 2015. Changes that have been made for consistency, accuracy, and clarity do not affect the data and are not included.

Section I. General Information

18. DUNS Number
This field is optional. If your library system has a nine-digit Data Universal Numbering System (DUNS) number on file with the DPI, the field will be pre-filled. Obtaining and providing a DUNS Number for your system before it is needed can prevent delays in the LSTA grant application and award process.

For additional information and resources, including complete system annual report instructions, see dpi.wi.gov/pld/data-reports/annual-report.

To ensure questions about LibPAS or the annual report are addressed as soon as possible, send email to LibraryReport@dpi.wi.gov.
